

A1+P Indicator

SPECIFICATIONS	
Sample rated	5~25 times / sec
Load cell sensitivity	1~ 2mv/v
Division	1/2/5/10/20/50/100 optional
Display	7-bits LED digital display 0.56" in character height and 7 status indicating
Clock	can display day/month/year and second/minute/hour
Scoreboard display interface	Using serial output method : current loop signal, transmission distance ≤50m RS323 signal, transmission distance ≤30m
Communication port	RS-232C, Baud rate: 600/1200/2400/4800/9600 optional
Printing Port	Standard parallel output port, can connect with Tpus16 micro-printer, TM800,LX-300, KXP-1121and LQ-1600k wide-line printer.
Power Supply	AC 187~242V ; 49~50Hz The built-in repair-proof storage cell; 12V,7AH
Operating Temperature and Relative Humidity	0 ~ 40°C, ≤90% RH
Storage /transportation Temperature	-20 ~ 50°C
Fuse	500mA
